A LEGACY OF EXCELLENCE IN ELECTRICAL INNOVATION

Kolors is a Fast Moving Electrical Goods (FMEG) Company that has cemented its position as a leading player in the industry. With an unwavering focus on quality, meticulous execution, and an extensive product range, we have established ourselves at the forefront of the electrical goods market.

Since our inception in 1970 as a small trading company dealing in electrical wiring accessories, we have come a long way. Gradually, we ventured into manufacturing electrical switches and fixtures for various sectors, including homes, offices, factories, airports, and hotels. Today, we take immense pride in being the creators of international quality products that are conceived, designed, and manufactured in India for the world.

Driven by a pursuit of excellence, Kolors offers a comprehensive range of switches, sockets, accessories, MCBs, LED lighting products, plug tops, wires & cables, lamp holders, doorbells, distribution boxes, home automation systems, and mounting boxes for diverse market segments. Our 5 state-of-the-art manufacturing plants, 14 depots, strong workforce of over 2000 individuals, with more than 10000 products and vast network of 5000 plus Channel Partners enable us to cater to a wide customer base across the globe.

At Kolors, we believe in the fusion of quality, sophistication, and style. Our relentless focus on innovation and proficiency has allowed us to deliver world-class products that exude grandeur and sheer class. With a wide array of offerings, we have something to suit every style of living, ensuring that our customers find the perfect solutions for their electrical needs.

Our commitment to excellence has been recognized through prestigious accolades, including being honored with the India Design Mark twice. These acknowledgments further validate our dedication to delivering products of unmatched quality and design.

Kolors is proud to be an Indian company that stands tall in the electrical goods industry. We continuously strive to raise the bar, bringing international standard quality products with our ultra modern state of the art manufacturing processes, which has helped us in claiming ISI, ISO, OHSAS & CE certifications. With Kolors, you can expect nothing less than superior electrical goods that enhance stylish living.

Our journey is driven by a simple vision—to redefine the way people experience electrical design. With Kolors, you don't just install a switch; you make a statement of style and sophistication.

THE AVOIR PHILOSOPHY

Design is not just what you see.
It's what you feel, what you experience.

AVOIR is the pursuit of perfection.
Where precision meets artistry, Where form and function speak the same language.

Crafted for those who see beauty in the details,
For spaces that deserve more than the ordinary, For those who believe elegance is effortless.

It's not just a switch.
It's a statement of sophistication. A new standard of luxury. A touch of timeless design.

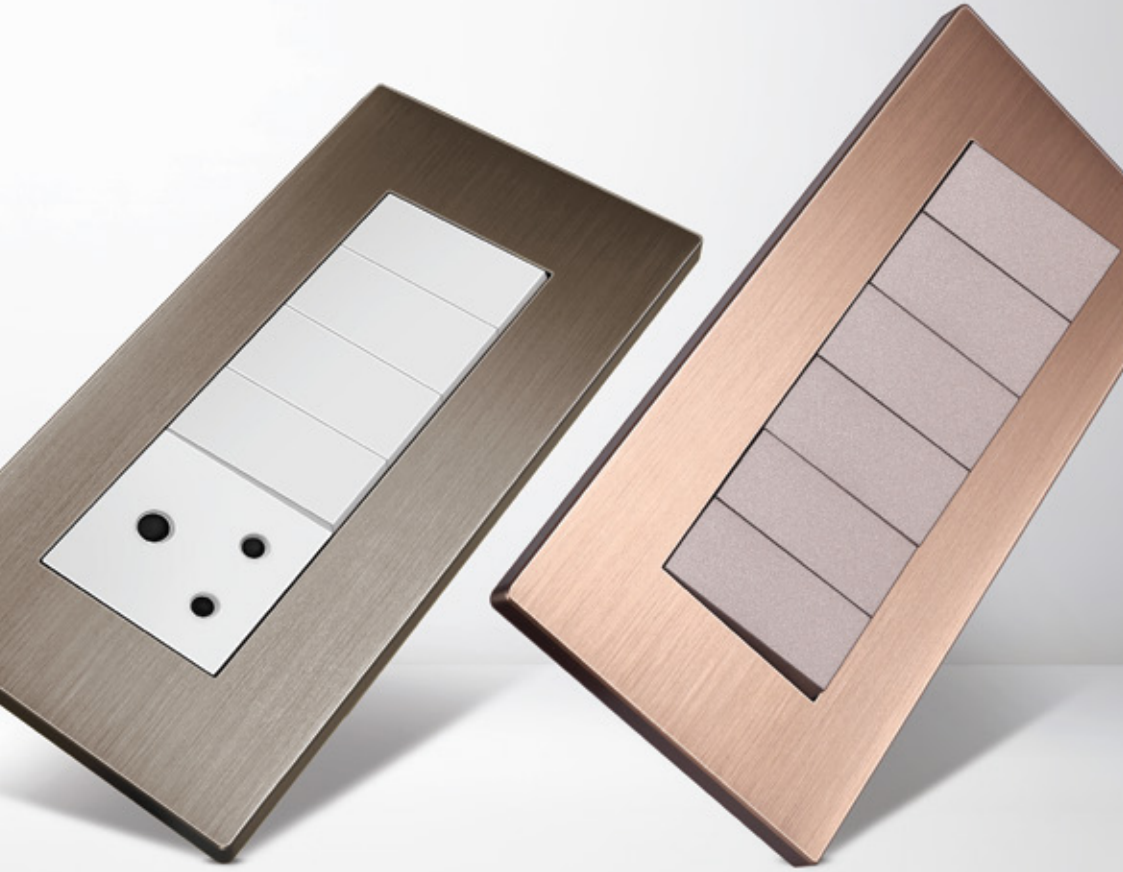

This is AVOIR.
Where every detail is a masterpiece.

Introducing Cocoa Brown colour.
For those who define luxury in the details.

Revolutionary Elegance.
Unmatched Refinement.

Cocoa Brown isn't just a colour-it's an experience.
A deep, indulgent shade designed for those who appreciate warmth, depth, and timeless sophistication. Crafted with a soft matte finish, it exudes understated luxury, blending seamlessly into modern and classic interiors alike.

Engineered with special paint technology, this finish
is not only visually stunning but also resistant to everyday wear, ensuring lasting beauty. The rich, velvety texture enhances the tactile experience, making every interaction feel refined and effortless.

More than an insert, it's a statement-where design meets innovation, and function embraces artistry.

AVOIR™

Elite Design Collection

Charcoal Black – Bold. Defined. Contemporary.

Crisp, clean, and endlessly adaptable, Charcoal Black inserts offer a seamless blend into any design language. Whether paired with light interiors for a harmonious look or used as a subtle contrast in darker spaces, its pristine finish enhances both modern and classic aesthetics.
A touch of simplicity that never fades.

White – Timeless Purity. Effortless Versatility.

Crisp, clean, and endlessly adaptable, White inserts offer a seamless blend into any design language. Whether paired with light interiors for a harmonious look or used as a subtle contrast in darker spaces, its pristine finish enhances both modern and classic aesthetics. A touch of simplicity that never fades.

Graphite Grey – Understated Luxury. Ultimate Sophistication.

A shade that speaks in quiet confidence, Graphite Grey inserts offer a velvety, refined finish that absorbs light beautifully. Designed for those who seek effortless elegance, it seamlessly integrates into high-end interiors, adding a sleek and contemporary touch to every detail.

Each insert is crafted to enhance, complement, and complete your design vision, ensuring that every element in your space is a statement of precision and style.

Inside View of your AVOIR switch

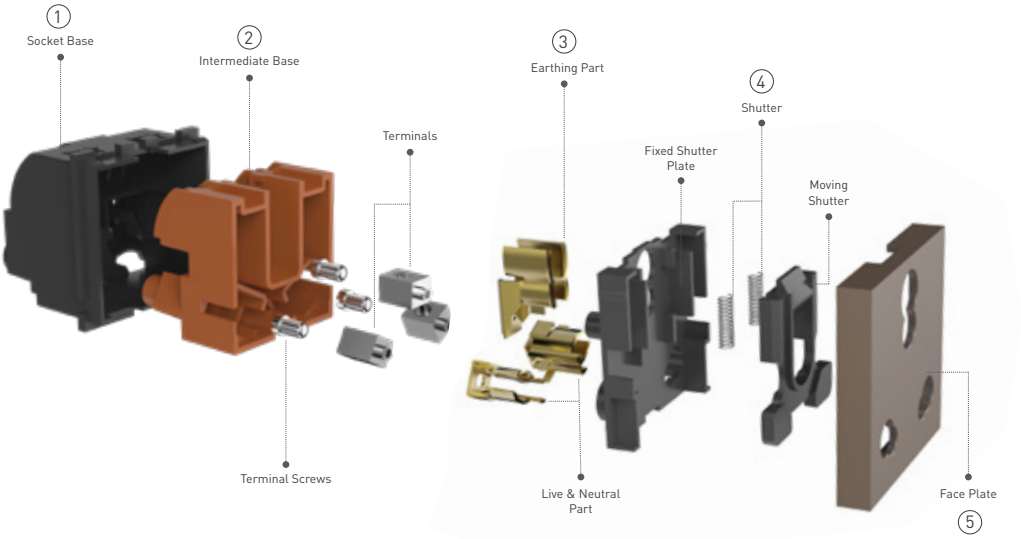

1) Switch Base: FR unbreakable engineering plastic which is UV Stabilised is used to house the current carrying parts.

2) Terminal Holder: It is placed between current carrying parts and outer engineering plastic switch base; moulded out of heat resistant with very high HDT (High Deflection Temperature) engineering plastic which prevent structural deformation at high temperature.

3) Terminal With Contact: Brass with very High copper percentage which is silver plated, for excellent current carrying capacity resulting in low temperature rise which in turn helps in prolonging the life.

4) Moving Arm, Spring & Rocker: Unique mechanism which reduces contact bounce, ensure +ve contact every time, components designed and materials which have high heat resistance because of glass filled self lubricating actuator, spring steel springs for consistent pressure for longer time period and current carrying moving copper arm which is silver plated for high conductivity enclosed in spark shield.

5) Front Knob With Indicator: Front & inner knob for smooth operations with excellent finish achieved through UV stabilised FR grade engineering plastic.

1) Socket Base: UV Stabilised FR grade unbreakable engineering plastic is used to house the complete socket mechanism.

2) Intermediate base: Placed between current carrying parts and outer engineering plastic base, moulded out of heat resistant Heavy duty engineering plastic with very high HDT (High Deflection Temperature) which prevent structural deformation at high temperature.

3) Earthing, Live & Neutral Parts: These parts made out of Phosphorous Bronze with very High copper percentage resulting in high current carrying capacity, low temperature rise prolonging the life and with excellent spring properties preventing loose contact and sparking, wire terminals extruded through brass of high percentage of copper.

4) Shutter: Unique shutter mechanism with self lubricating properties and high heat resistance material with spring steel springs and guided plates for precise and consistent movements.

5) Face Plate: Front face plate with excellent finish achieved through UV stabilised FR grade engineering plastic.
